

Ignite Your Vibes

Why ignite? Because it embodies power.

When something is ignited, it's alive. It exudes energy, meaning and purpose. It literally catches fire!

That's exactly how women should feel about themselves. They should feel alive and on fire with purpose and passion.

And because most of the time, women are unable to clearly see the power or vibes they already have within themselves. It usually takes someone else, or organisation or even an event to affirm and ignite that power, and the vibes.

THAT WILL BE WOW SYMPOSIUM!

WOW SYMPOSIUM

Igniting the Vibes

OVERVIEW

Women EmpoWerment (WOW) Symposium, organised by Rotary International District 3300 Action Group for Women Empowerment (DAG-WOW) aspires to bring women together from all walks of life, to inspire and empower them to follow their personal aspirations and professional dreams, and subsequently play important roles in building their communities.

OBJECTIVES

We have lined up dynamic and inspiring trailblazers to share their stories and insights to ignite the vibes of the participants - by inspiring and empowering them to:

- understand and be cognizant of issues that have important impacts on girls and women
- ponder and reflect on their lives and be true to their life purpose
- create change and speak up for what they believe
- break rules and take calculated risks, and embrace seemingly insurmountable challenges

Symposium Takeaways

- 1** great reflections that ignite awakening from the panel, speakers, and session leaders who have trodden the winding paths that women could relate to and yet have risen to challenges
- 2** a clear roadmap that any woman could immediately use to ignite their vibes.
